

SMOKING POLICY

Purpose.

The purpose of this policy is to support the Cow Creek Tobacco Policy to promote smoke free areas and reduce the risk of second hand smoke to all Residents in the Cow Creek Indian Housing Development Community. Further, it is an effort to prevent any physical wear and damage caused by smoke to the Tribal housing units.

Implementation.

All housing units are considered non-smoking areas. It is the responsibility of the Residents to make sure no one smokes inside the housing units.

Smoking is allowed outside or in the garage area, however, all cigarette or cigar butts must be placed in an appropriate non-combustible container and not thrown on the ground.

It is the obligation of each Resident to demonstrate responsible actions by showing respect for their low housing costs by maintaining proper care and upkeep of their unit and surrounding areas.

An additional deposit will be required at the time of lease for all Residents that use tobacco products.
